

**Dr. med. Johannes Christian Hellmuth**  
**Curriculum Vitae**

**CURRENT POSITION**

Postdoctoral Associate in Medicine in the laboratory of Prof. Ari Melnick at Weill Cornell Medical College.

**EDUCATION**

- 2006 - 2011            Medical school of the Technische Universität München, Germany  
Final year rotations:    New York University, USA (Pediatrics)  
                                 Technische Universität München, Germany (Internal Medicine)  
                                 Université Victor Segalen Bordeaux, France (Surgery)
- 2004 - 2006            Medical school of the Eberhard Karls Universität, Tübingen, Germany

**CLINICAL TRAINING**

- 11/2011 - 09/2015    Resident physician / Fellow at the Department of Hematology and Medical Oncology,  
                                 and            Klinikum der Universität München, Klinikum Großhadern, Germany  
07/2019 - present    Head: Prof. Michael von Bergwelt
- I have completed a one and a half year placement in the general hematology and oncology unit under the supervision of Prof. Martin Dreyling focusing on in-patient treatment of Hodgkin and non-Hodgkin lymphoma as well as acute leukemia. I then moved to the department for hematopoietic stem cell transplantation where my main area of interest was post-transplant immunotherapy of disease-relapse (supervisor: Dr. Johanna Tischer). From 2013 to 2015 I was clinical investigator for multiple clinical trials focusing on Hodgkin Lymphoma.
- Currently, I am part of the lymphoma service (head: Prof. Martin Dreylin & Prof. Oliver Weigert) serving our out-patient lymphoma clinic.

**RESEARCH TRAINING**

- 10/2015 - 06/2019    Division of Hematology & Medical Oncology of Weill Cornell Medical College, Laboratory of Prof. Ari Melnick  
                                 „Role of long non-coding RNAs in Lymphoma Pathogenesis“
- 02/2013 - 09/2015    Department of Hematology and Medical Oncology of the University of Munich & Helmholtz Zentrum München, Laboratory of Dr. Oliver Weigert  
                                 “Pathogenesis and mutational landscape of Follicular Lymphoma”
- 2006 - 2011            Division of Clinical Pharmacology, Department of Internal Medicine, University of Munich, Laboratory of Prof. Simon Rothenfusser & Prof. Stefan Endres  
Dissertation, title: “Functional characterization of the RIG-I-like helicase LGP2”,  
*summa cum laude, degree conferral date June 5<sup>th</sup> 2014*

**GRANTS & FELLOWSHIPS**

- 11/2017 - 06/2019    National Cancer Center Postdoctoral Fellowship  
                                 title: eRNA Processing by Integrator in Lymphoma Pathogenesis
- 11/2015 - 10/2017    Mildred Scheel Postdoctoral Fellowship, German Cancer Aid  
                                 title: eRNA Processing by Integrator in Lymphoma Pathogenesis
- 01/2015 - 06/2015    Intramural Start-up Grant, FöFoLe-program, University of Munich,  
                                 title: Genetic Characterization of Gastrointestinal Follicular Lymphoma and Follicular Lymphoma *in situ*

**AWARDS & SCHOLARSHIPS**

- 12/2019                ASH Abstract Achievement Award
- 12/2017                ASH Abstract Achievement Award
- 2016                    Helmsley Scholarship for the 2016 Cold Spring Harbour Laboratory course on Chromatin, Epigenetics and Gene Expression
- 2010                    Scholar of the NYU/Cornell-program, Technical University of Munich
- 2006 - 2007            Scholar of the DFG-funded Research Training Group 1202 “Oligonucleotides in Cellbiology and Therapy”, University of Munich, Germany
